

# APIS'12

## Honorable Mention Poster Award

**[P-1]** Linkage Effect on Memory Behaviors of Sulfonyl-containing Polyether, Polyester, Polyamide, and Polyimide

*Chih-Jung Chen (National Taiwan University)*

**[P-8]** Preparation and Characterization of Colorless and Highly Transparent Semi-aromatic Polyimide Films Derived from Alicyclic Dianhydride and Fluorinated Aromatic Diamines

*Lin Fan (Chinese Academy of Sciences)*

**[P-13]** Polymer Design for High Performance Transparent Polyimides

*Kohei Goto (JSR Corporation)*

**[P-19]** Colorless Polyimides Derived from Cyclopentanone Bis-spironorbornane Tetracarboxylic Dianhydride

*Eriko Ishiquro (Tokyo Polytechnic University)*

**[P-20]** Polyimide resins and their carbon fiber reinforced composites

*Mian Ji (Chinese Academy of Sciences)*

**[P-30]** Development of Photosensitive Imide-containing Vinyl Polymers Based on Reaction Development Patterning

*Daisuke Sakii (Yokohama National University)*

**[P-37]** Novel Flexible and Transparent PI-TiO<sub>2</sub> Optical Films with High Refractive Index and Excellent Thermally Stability

*Chia-Liang Tsai (National Taiwan University)*

**[P-38]** Transparent and Flexible Polyimide Composite Films with Improved Moisture Barrier Property by Graphene

*I-Hsiang Tseng (National Chin-Yi University of Technology)*
